# School-Age Care

**2016-17**

## Certificate of Achievement in School Age Care

This certificate program is designed for students who wish to work with school-age children and their families in before and after-school programs. The course work offers both a theoretical background and practical experience in school-age education and the development of young children, ages 5-9.

The program centers on the combination of practical supervised teaching with classroom instruction. Basic principles of early child education and child development, including curriculum for school-age children is introduced. Throughout, there is considerable emphasis placed on developing professional relationships with children and their families, fostering positive staff relations, knowledge of community resources and awareness and sensitivity to the diverse populations with whom the student will work.

## Careers in Early Childhood Education

This certificate is primarily designed for those students who wish to teach or direct in school-age programs. However, an ECE certificate can also lead to career options such as elementary teacher, employer sponsored child care consultant, resource and referral specialist, child psychologist, children's writer and other family/child related positions.
