Geography

2017-18

Associate in Arts Degree in Geography

Geography is a complex discipline allied to the social, biological and physical sciences. The major is concerned with the physical environment and the human element that operates within that environment.

Attention is focused upon historic and contemporary human activities within the context of the biophysical and cultural environment, and the emergence of humanity as one of the major agents of change on the earth's surface.

Careers in Geography

Geography prepares students for careers in business, government and education, as well as for graduate study in theoretical and applied geography. A more specific list can be found in the Career Center at Santa Barbara City College.
